Ram Ganesh H

Backend Java Developer

ramganesh683@gmail.com
+91-(733) 917-6042

SUMMARY

Adaptable Backend Developer with a strong track record in creating efficient, scalable web applications. Proficient in Java and Spring Boot, with a deep understanding of RESTful APIs.

CAREER OBJECTIVE

Seeking a position as an **Entry Level Backend Developer** where I can leverage my expertise in developing database schema and objects, creating REST APIs for third-party integrations, and optimizing product development by creating unit tests to make a positive and meaningful impact. With my knowledge of relational database systems, technical documentation creation, and troubleshooting experiences I am confident I can ensure **quality development** and support **processes**.

WORK EXPERIENCES

Innovative Work Solutions   Jul 2022 - Sep 2023

AR Caller

As an AR Caller, I have to mainly handled US Clients on the other side, Knowing their requirements communicating with them and solving the issues.

ZF Wabco

Quality Analyst

As a quality Analyst, I have to check for the quality of the products and inform my higher authorities if any error occurs.

PROJECTS

LMS

LMS is a software application for the administration, documentation, tracking, reporting, automation, and delivery of educational courses, training programs, materials and development programs

My role includes **creating, maintaining, testing, and debugging the entire back end of an application or system**. This includes the core application logic, databases, data and application integration, API, and other processes taking place behind the scenes.
